**HB 860**

Ordered to third reading.

Committee opposed to special licenses and has previously killed special licenses for bear and pheasants.

Resolution adopted.

**HB 842**

permitting permanently disabled veterans to have a perpetual hunting and fishing license. Ought to pass. Rep. Chamberlin for Fish and Game.

This would save unnecessary work by the totally disabled veterans in obtaining licenses and permits each year, which provides a permanent license for disabled veterans.

Ordered to third reading.

**HB 802**

permitting the city of Franklin to suspend the verification of the checklist. Ought to pass. Rep. Burleigh for the Franklin Delegation.

This bill would enable the city of Franklin to suspend verification of its checklist until within one year following the November, 1973 city election.

Ordered to third reading.

**HB 804**

establishing the ward lines and providing for redistricting of the city of Franklin. Ought to pass with amendment. Rep. Burleigh for the Franklin Delegation.

This bill would amend the charter of the city of Franklin by establishing new ward lines.

**AMENDMENT**

thence northwesterly along Babbit Road to the point of beginning.

Ordered to third reading.

### **HB 883**

relative to the powers of county commissioners. Ought to pass. Rep. Arnold B. Perkins for Municipal and County Government.

While it is the usual procedure for decisions of the county commissioners to be made by majority vote, such terminology does not appear in the statutes. This legislation spells out that such decisions shall be by majority vote, similar to the statutes affecting decisions by the board of selectmen.

Ordered to third reading.

### **HB 893**

permitting county conventions to employ special legal counsel. Ought to pass. Rep. Bednar for Municipal and County Government.

While it is common practice for the county delegation to utilize the services of the county attorney for legal counsel, there may be occasion due to absence, heavy workload, conflict of interest, or other cogent reason, that the services of the county attorney would not be available. This legislation allows the convention to employ outside legal counsel, and to appropriate funds and fix compensation for such services. HB 828, previously passed by the House, permitted the county commissioner to employ outside legal counsel, when similar situations existed.

Ordered to third reading.

**HB 754**

amending the Nashua city charter to provide for a five member board of education elected at large for two year terms. Inexpedient to legislate. Rep. Gabriel for the Nashua Delegation.

Resolution adopted.

**HB 578**

relative to the duties of the division of welfare pertaining to child welfare. Ought to pass. Rep. Edward A. Johnson for Public Health and Welfare.

Deals specifically with the responsibilities and duties of child welfare. The duties of child welfare, as defined by this section, presently state that they are to supervise the administration of the same (child welfare duties by town and county officials). However, the counties and towns do not administer child welfare services any longer, and, if they did, these counties and towns are not supervised by the state child welfare officials. Therefore, the Commission is attempting to clarify a section of the statute which is outmoded. The present statute prohibits the publication or disclosure of names, addresses, etc. of anyone receiving public assistance. The proposed change would increase this confidentiality aspect to the child welfare records.

Ordered to third reading.

**HB 896**

relative to health certificates for child-care agency personnel. Ought to pass. Rep. Vesta M. Roy for Public Health and Welfare.

Bill amends the statutes requiring health certificates for personnel of child-care agencies by removing the requirement that certificates be presented annually and by authorizing the director of the division of welfare to require additional examinations when required.

Ordered to third reading.

**SB 147**

broadening the purposes for which the capital appropriation of 1971 for dredging of Hampton Harbor may be expended. Ought to pass. Rep. Alice Davis for Public Works.

The 1971 law on this Hampton Harbor project uses the word "dredging" of Hampton Harbor. This bill merely adds the words "and improving", all within the original 1971 money appropriation.

Ordered to third reading.

**HB 647**

relative to extending retail and vending licenses on tobacco until June 30, 1974 and biennially thereafter. Inexpedient to legislate. Rep. Cate for Statutory Revision.

This does not cover the cost of licenses at this time and this bill would not improve the law.

Resolution adopted.

**HB 758**

relative to sessions for correction of the check-list in small towns. Inexpedient to legislate. Rep. Cate for Statutory Revision.

Covered by HB 14 which passed the House two weeks ago.

Resolution adopted.

**HB 805**

relative to indemnification agreements between architects, engineers, or surveyors and owners, contractors or sub-contractors. Ought to pass. Rep. Cate for Statutory Revision.

Ordered to third reading.

**HB 880**

exempting part-time employees of nonprofit fraternal organizations from provisions of unemployment compensation laws. Inexpedient to legislate. Rep. Cate for Statutory Revision.

This is in opposition to federal law.

Resolution adopted.

**RESOLUTION**

Rep. Haller moved that all bills ordered to third reading be read a third time by this resolution and that all titles of bills and captions of resolutions be the same as adopted, and that they be passed at the present time, unless otherwise ordered by the House.

Adopted.

**Third reading and final passage**

### **AMENDMENT**

Amend the bill by striking all after the enacting clause and inserting in place thereof the following:

1 New Chapter. Amend RSA by inserting after chapter 143 the following new chapter:

#### **Chapter 143-A Food Service Regulation**

143-A:1 Definitions. As used in this chapter unless the context clearly indicates otherwise:

I. "Director" means the director of the division of public health services, department of health and welfare.

II. "Division" means the division of public health services, department of health and welfare.

III. "Food-service establishment" shall mean any fixed or mobile restaurant; coffee shop; cafeteria; short order cafe; luncheonette; grill; tearoom; sandwich shop; soda fountain; tavern; bar; cocktail lounge; night club; roadside stand; catering kitchen; commissary or similar place in which food or drink is prepared for sale or for service on the premises or elsewhere; or industrial feeding establishment which prepares and serves food to the general public, but shall not include church, society, fraternal or tax-exempt organizations when serving food in con-

nection with their activities or when serving food for the purpose of raising money for said church, society or organization.

143-A:2 License Required. It shall be unlawful for any person to operate a food-service establishment within this state who does not possess a food-service license for that establishment from the director. Only a person who complies with the requirement of this chapter shall be entitled to receive and retain such a license. A valid license shall be posted in every food-service establishment. Licenses shall not be transferrable from one person to another person or place.

143-A:3 Application; Issue; Fees. The director may issue a license to any food-service establishment upon receipt of a written application upon a form furnished by the director and setting forth such information concerning the applicant and his operation and facilities as may by regulations be required. A license will be granted upon the express condition that the applicant shall at all times conduct his operation and maintain his facilities in accordance with the requirements of this chapter and those regulations promulgated hereunder. All licenses shall be issued for a period of one year or portion thereof and shall expire on the first day of January next following issuance. The annual license fee shall be twenty-five dollars for each food-service establishment.

143-A:4 Disposition of Fees. All license fees collected by the director shall be forwarded to the state treasurer. The state treasurer shall keep said fees in a special account to be known as the food service inspection fund. From said fund shall be paid all expenses of the division relative to the enforcement of the provisions of this chapter. The sums in said fund shall not lapse but shall be available for food service inspection expenses for each succeeding year.

143-A:5 Suspension of License. Whenever the director or his authorized agents or representatives finds unsanitary or other conditions in the operation of a food-service establishment which, in his judgment, constitute a substantial hazard to the public health, he may without warning, notice or hearing, issue a written notice to the license holder citing such condition, specifying the corrective action to be taken, and specifying the time period within which such action shall be taken; and, if deemed necessary, such order shall state that the license is immediately suspended and all food service operations are to be immediately

discontinued. Any person to whom such an order is issued shall comply immediately therewith, but upon written petition to the health authority shall be afforded a hearing within fifteen days of such petition.

**143-A:6 Reinstatement of Suspended License.** Any person whose license has been suspended, may at any time, make application for a reinspection for the purpose of reinstatement of the permit. Within ten days following receipt of a written request, including a statement signed by the applicant that in his opinion the conditions causing suspension of the permit have been corrected, the health authority shall make a reinspection. If the applicant is complying with the requirements of this chapter and regulations promulgated hereunder, the license shall be reinstated.

**143-A:7 Revocation of License.** For serious or repeated violations of any of the requirements or provisions of this chapter or regulations promulgated hereunder, or for interference with the director or his authorized agents or representatives in the performance of his duties, the license of a food service establishment may be permanently revoked after an opportunity for a hearing has been provided by the board. Prior to such action the director shall notify the license holder in writing, stating the reasons for which the license is subject to revocation and advising that the license shall be permanently revoked at the end of five days following service of such notice; unless a request for a hearing in writing is filed with the director, by the license holder, within such five day period. A license may be suspended for cause pending its revocation or a hearing relative thereto.

**143-A:8 Hearings and Appeals.** The hearings provided for in RSA 143-A:5 and RSA 143-A:7 shall be conducted by the director at a time and place designated by him. Based upon the evidence presented, the director shall make a finding and shall sustain, modify, or rescind any official notice or order considered in the hearing. A written report of the hearing discussion shall be furnished the license holder by the director. Any person aggrieved by any decision of the director may appeal therefrom in accordance with the provisions of RSA 541.

**143-A:8 Regulations.**

I. The director shall adopt as a regulation the Sanitary

Food Code and all amendments thereto. The director shall also have the power to promulgate reasonable rules and regulations in addition to said code for the enforcement of this chapter. Such rules and regulations shall concern food service establishments and relate to definition of terms; satisfactory food supplies and their protection; cleanliness, health and disease control of personnel; cleanliness, sanitary design, construction and installation of equipment and utensils; approval of garbage and refuse disposal practices, vermin control; hand washing facilities, toilet facilities, plumbing, sewage disposal and water supplies; cleanliness of floors, walls and ceiling; adequate lighting and ventilation; dressing rooms and lockers; and environmental conditions surrounding the building.

II. Whenever the director shall deem consideration of changes or amendments to the regulations promulgated under the authority of paragraph I to be desirable, he shall give notice of and hold a public hearing for consideration of the necessity or desirability of making changes or amendments. At least ten days notice of the public hearing shall be given, specifying the time and place of such hearing by advertising the same in at least one newspaper of general circulation in the state.

III. All rules and regulations relating to food-service establishments as promulgated on October 28, 1968 and amended April 18, 1972 by the director under the authority of RSA 143:6 which are not inconsistent with the Sanitary Food Code, are hereby approved as the regulations to be effective and in force in the first instance under the provisions of this chapter and said regulations shall remain in force until and unless amended by the director in accordance with procedures established herein.

#### 143-A:9 Inspections.

I. The director or his authorized agents or representatives shall have access, at any reasonable hour, to all food-service establishments for the enforcement of the provisions of this chapter.

II. Any expenditure for buildings or shelters along any of the acquired trail system, exceeding the sum of five hundred dollars, shall be only expended on state owned lands following the normal budgetary procedures for any capital improvement.

III. (c) After cancellation, provided the seller has returned to the buyer all payments, goods (or their trade-in value), other property, notes or any other evidence of indebtedness, the seller is then entitled to receive within the same fifteen day period, in substantially the same condition as delivered, any goods,

merchandise or other property which was received by the buyer from the seller.

IV. It shall be the responsibility of the seller to either call for the merchandise at the point of delivery, or request return by mail or other transportation at the seller's expense. It shall be the buyer's responsibility to cooperate in the exchange of properties when cancellation is requested.

V. If the seller has made no effort to recover his property after ninety days following the sale of the property, it shall become the buyer's property without further obligation of any kind.

\*This amount available for expenditures only if federal funds are available. Any funds in excess of the estimated federal grants shall be available for such further expenditure as the Governor and Council shall approve. Any decrease in federal funds will be implemented by a proportionate decrease in all classes of expenditure as recommended by the Fish and Game Commission and approved by the Governor and Council, including any permanent personal services formerly covered by federal funds.

The Comptroller, in a form acceptable to him shall require the Director of the Fish and Game Department to prepare a listing of all claims against available federal funds allocated to the Fish and Game Department as of June 30, 1973 and submitted to the Comptroller no later than July 10, 1973. All claims listed shall be reviewed by the Department of Administration and Control and compared to the records maintained at Fish and Game to insure that all direct and applicable indirect federal participating expenditures through June 30, 1973 have been included. All federal project records must be completely up-to-date at all times and billings for federal reimbursements must be made on a timely basis. A federal project status report, as prescribed by the Comptroller, must be submitted quarterly — on October 10, January 10, April 10, and July 10 — to the Department of Administration and Control for review.

Prior to closing the state accounts for fiscal year 1973, the Comptroller shall record the claims as federal revenue in the Fish and Game Fund. All prior year reimbursements from federal in excess of the amount recorded as of June 30, 1973 shall be deposited to the Fish and Game Fund.

Provisions of RSA 206:36 shall be suspended for the biennium ending June 30, 1975.

### INTRODUCTION OF HOUSE BILL

First, second reading and referral

HB 1051, amending the charter of the city of Somersworth relative to abolishing the police commission, the appointment of the police chief and the composition of the school board. (Rules Committee for Rep. Meserve of Strafford Dist. 7 — To Special Committee: Somersworth Delegation.)

Remarks of Rep. Joseph M. Eaton.

Members of the House, and particularly, Elaine Lyons. It is a known fact that a legislature is not supposed to be a peaceful place. That is where people go to disagree and debate and argue and that is what we are here for. The Hillsborough County Delegation does a particularly good job. We have a reputation for fighting at great length on every possible subject

and now, after all these years, there is finally one exception. There is finally one matter on which the delegation, is unanimous. We are all agreed that our clerk, Elaine Lyons, by hard work and great ability has contributed a great deal to the work of this delegation, that she deserves much of the credit for what we have accomplished. Today the Hillsborough County Delegation wants to tell Elaine that we do appreciate her and we want to tell all the members of this House we are grateful for everything Elaine has done.

#### SUPREME COURT DECISION ON

HB 711, relative to the location of the proposed Cheshire county courthouse.

To the House of Representatives:

The undersigned justices of the supreme court return the following answer to the question contained in your resolution adopted and filed with the supreme court on May 15, 1973. The time for filing memoranda on the submitted question by interested parties or any member of the public was May 21, 1973.

The primary question submitted is whether a county, in the absence of express statutory authority exempting it from the provisions of a city zoning ordinance, may construct a courthouse on county land in an area where such construction is prohibited by the ordinance. Under the provisions of House Bill 711 Cheshire county is authorized to construct a new courthouse "notwithstanding any present or future zoning ordinances enacted by the city of Keene to the contrary." A secondary question is whether this statute is necessary.

While there is some conflict among the cases, it is a general rule supported by a majority of jurisdictions and by the commentators that municipal ordinances do not control county construction, particularly where the county is performing an essential function of government, such as the construction of a courthouse. "Municipal corporations will ordinarily not be able to apply their zoning controls to the counties in which they are located, absent statute clearly authorizing the same. Illustratively, the Wisconsin court has held that a city could not regulate by zoning ordinance the location and construction of a county jail." 1 Antieau, Municipal Corporation Law § 7.86, at

490.90 (1968), citing *Green County v. Monroe*, 3 Wis. 2d 196, 87 N.W.2d 827 (1958). The same legal proposition has been stated in 8 McQuillin, *Municipal Corporations* § 25.15, at 45 (rev. ed. 1965) as follows: "Municipal zoning regulations or restrictions usually do not apply to the state or any of its subdivisions or agencies, unless the legislature has clearly manifested a contrary intent. Thus, properties and the uses thereof may be immune or exempt from the operation of municipal zoning regulations where owned or controlled by counties. . . ." To the same effect see 2 Yokley, *Zoning Law Practice* § 21-5 (3d ed. 1965).

In this State we have no express statute which provides that counties are or are not subject to municipal zoning laws. The fact that the legislature has provided that housing authorities are subject to municipal zoning laws is some evidence, although not conclusive, that express legislative authority is required if city zoning ordinances are applicable to other governmental units. See RSA 203:13. In *Sherman v. Brentwood*, 112 N.H. 122, 123, 290 A.2d 47, 48 (1972), the question was raised but not decided as to whether counties are subject to local zoning ordinances. In that case it was stated that there may be merit in the position that counties were not subject to local zoning ordinances.

The House of Representatives is advised that New Hampshire adopts the majority rule that a county is not required to comply with a city zoning ordinance in the erection and construction of a courthouse. Annot., 61 A.L.R.2d 970 (1958); *County of Westchester v. Village of Mamaroneck*, 41 Misc. 2d 811, 246 N.Y.S.2d 770, *aff'd*, 22 App. Div. 2d 143, 255 N.Y.S.2d 290 (1964), *aff'd*, 16 N.Y. 2d 940, 212 N.E.2d 442, 264 N.Y.S.2d 925 (1965). See *Appelbaum v. St. Louis County*, 451 S.W.2d 107 (Mo. 1970).

In view of our answer it is unnecessary for the legislature to enact House Bill 711, An Act relative to the location of the proposed Cheshire county courthouse, although enactment of this statute might be of assistance to the county in the issuance of any bonds therefor.

Amend paragraph I of section 7 of the bill by striking out said paragraph and inserting in place thereof the following:

I. Any member of the retirement system who has attained the age of sixty-two years and, in respect to each employee in the service of the city on the effective date of this act, who has completed twenty years of service shall be eligible for retirement for superannuation under the provisions of this act. A person shall be deemed totally and permanently disabled after three successive years of receiving disability payments. Should any such retiree refuse to submit to such medical examination in any such period of his disability retirement, then his pension may be discontinued by the retirement board until his withdrawal of such refusal. If such refusal continues for one year, all his rights in and to a disability retirement pension may be revoked by the retirement board. If, upon such medical examination, the physician or physicians certify to the retirement board that the retiree is physically and mentally able and capable of resuming employment with the city, he shall be restored to city service in either the same position he previously held or a position comparable in duties, responsibilities and compensation and his disability retirement pension shall be terminated. relative to exemptions available for the New Hampshire property tax. Majority: Ought to pass; Rep. Nutt for Ways and Means. Minority: Inexpedient to legislate. (Reps. Chandler and Gerry F. Parker)

Majority: This bill extends present property tax exemptions for the elderly. Age for qualification is lowered from seventy to sixty-five. Assets allowed are increased from \$25,000 to \$35,000. Income allowance is increased from \$4,000 to \$5,000 for single persons and \$6,000 for couples. Social security income is exempted. Additional estimated loss of revenue is approximately two million dollars. HB 945 if enacted will more than replace this loss to towns and cities.

1 Airport Committee Established. A committee is hereby established to study means of financing New Hampshire airports on a just, equitable and practicable basis, and to consider the relationship of federal, state and local support to this end. #### **HB 869**

creating enabling legislation to permit a local option homeowners' exemption applied to property taxes upon approval by referendum. Ough to pass with amendment. Rep. Nutt for Ways and Means.

This bill provides enabling legislation permitting a local referendum on a Homeowners' Exemption of \$5,000 on equalized valuation; \$10,000 for persons over age 65. A vote is held on the question by the voters in any town or city wishing to adopt it, but no state-wide referendum is forced.

The Committee had a public hearing at which many speakers appeared supporting the legislation. There were no speakers in opposition. The Committee believes the local option feature permits communities to make their own decisions, enhancing home rule.

The amendment provides a limitation of \$8,000 below which a valuation is not exempted, guaranteeing that each homestead pays at least some taxes to the community and is not totally exempted.

The Ways and Means Committee feels that this approach,

on a local option referendum basis, provides a responsible method of property tax relief for New Hampshire's citizens.

### AMENDMENT

Amend RSA 72:45, as inserted by section 2 of the bill, by striking out same and inserting in place thereof the following:

Said title may be held solely, jointly or in common with others and said exemption may be apportioned among such of the owners as shall reside thereon as their respective interests shall appear. The exemption provided herein shall be allowed on each condominium parcel occupied by its owner and on any other entity recognized at law as realty and occupied by its owner.

This bill establishes a new department of administration and finance which shall be under the supervision of a commissioner and which shall consist of three divisions, namely a division of budget and program evaluation, a division of accounting and control and a division of general services.

### AMENDMENT

Amend the title of the bill by striking out the same and inserting in place thereof the following:

## AN ACT

establishing a department of administration and finance  
and making an appropriation therefor.

Amend the bill by striking out all after the enacting clause  
and inserting in place thereof the following:

1 Statement of Purpose and Need. The general court hereby finds:

I. That effective operation of state government is, in large measure, predicted on the quality of performance and service rendered by the central administrative and financial organizations of the executive branch;

II. That certain deficiencies are known to exist currently within the organizations, systems and procedures which comprise the state's core capacity for financial and administrative management and revenue collection, estimating and analysis;

III. That among these known deficiencies are some which have reached critical proportions with serious consequences threatening, in particular, the continued confidence of the people in their government's ability to account fiscally for the use of public funds; and

IV. That, in order to correct existing deficiencies and to establish the means by which we can insure a continuing future ability to cope with the growing complexities of state government which arise both from actions by the Federal government and by expressed desires by local governments and the citizenry in general, it is imperative that effective and immediate action be taken to bring about a better grouping of functions and a stronger supervisory structure to secure continuing, comprehensive consideration of the interrelation of budgetary, fiscal, and administrative management problems and to effect their resolution in a timely fashion.

2 New Chapter. Amend RSA by inserting after chapter 8-C the following new chapter:

## Chapter 8-D

## Department of Administration and Finance

8-D:1 There is hereby established a department of administration and finance under the executive direction of a commis-

sioner of administration and finance. Said department shall consist of a division of accounting and control, a division of budget and program evaluation, and a division of general services.

8-D:2 Duties of Department. The department of administration and finance shall have the following powers, duties and responsibilities:

I. To direct, overhaul and modernize the state's fiscal accounting systems, free of inefficiencies and unnecessary duplication of bookkeeping activities, using generally accepted accounting principles and taking full advantage of all benefits of automated data processing applications to the end that the fiscal affairs of all state agencies and departments will be adequately and uniformly serviced and that periodic financial and management reports will be available to serve the various needs of all state agencies, and the executive and legislative leaders in their decision-making processes;

II. To establish an improved capability to address all aspects of the budgeting cycle from budget preparation through program evaluation, to the end that each successive budget cycle will benefit from the knowledge obtained through appraisal of agency performance in executing preceding budgets;

III. To institute improvements, efficiencies, and economies in purchasing activities, real and personal property management practices, and other central administrative functions and services; and

IV. To establish the means by which the state may better assure close and continuing coordination of the several distinct, but related, administrative and financial activities upon which the effective and efficient management of all state programs and operations is reliant.

8-D:3 Definition. As used in this chapter, the word "commissioner" shall mean the commissioner of administration and finance unless the context clearly requires otherwise.

8-D:4 Commissioner of Administration and Finance; Appointment, Term. There shall be a commissioner of administration and finance who shall be appointed by the governor and council for a term of four years and until his successor is appointed and qualified; provided, however, that the initial appointee shall be nominated by a commission consisting of two

members of the senate, appointed by the president, two members of the house appointed by the speaker, and three persons appointed by the governor and said nominee to be confirmed by the council, and provided further, that the term of the initial appointee shall expire on June 30, 1977. Any vacancy shall be filled for the unexpired term.

8-D:5 —Removal. The governor and council may remove the commissioner of administration and finance only as provided in RSA 4:1.

8-D:6 —Salary. The annual salary of the commissioner of administration and finance shall be that provided in RSA 94 as hereinafter amended.

8-D:7 —Powers and Duties. The commissioner of administration and finance shall have the following powers and duties.

I. To establish department and divisional policy;

II. To control the actual operation of the department and all divisions therein;

III. To furnish to the governor and council, to any committee of either house of the legislature having jurisdiction over revenue or appropriations, and any department head such aid and information regarding the financial affairs of the state as may be requested;

IV. To develop and establish, subject to the approval of governor and council, a comprehensive statewide fiscal policy and procedures manual, and to revise the same from time to time as needed;

V. To implement generally accepted accounting principles and require every state department, commission, or other agency to uniformly and consistently use the same in its fiscal affairs;

VI. To assign and reassign, subject to the approval of governor and council, the duties, functions, and personnel of the department among and/or within the various divisions of the department as in his discretion will best effectuate the purposes, powers and duties of this chapter, notwithstanding to which division said duties and functions are initially assigned by statute; provided, however, that no such change shall eliminate any then-existing position within the classified service unless such position shall then be vacant, or if filled, its incumbent has been

transferred to another position of like tenure. Any person so transferred shall not have his salary reduced, irrespective of the labor grade of the position to which he is transferred. Any such transfer shall be reported to the next succeeding regular session of the general court with recommendations for any proposed legislation;

VII. To establish a system of budgeting and program evaluation;

VIII. To destroy at the end of six years from the time of filing, any records, reports, or miscellaneous papers in the department which, in his opinion, are no longer of value to the state, provided that any such destruction shall have the prior approval of the legislative budget assistant;

IX. To make an annual report to the governor and council and to the fiscal committee of the general court showing all unexpended appropriations and all other transactions of the department and information received by the department as he shall deem important. Said report shall be a public record and available to any interested person;

X. To issue a final statement of accounts of all funds of the state ninety days after the end of the fiscal year unless the governor and council for good cause shown, extend such period.

**8-D:8 Executive-Administrative Authority; Ex officio Positions.**

I. Notwithstanding any other provisions of law to the contrary, wherever any statute gives executive or administrative authority, either singularly or with the approval of the governor and council, to an officer whose position has been transferred to the department of administration and finance pursuant to the provisions of this chapter, henceforth it shall be construed to mean that such authority is vested in the commissioner of administration and finance or his designee.

II. Whenever any statute provides that an officer whose position has been transferred to the department of administration and finance pursuant to the provisions of this chapter shall be an ex officio member of any board, commission or other agency, henceforth it shall be construed to mean that the commissioner of administration and finance or his designee shall be said ex officio member. If there is more than one such ex officio

member on the same board, the commissioner shall have authority to appoint one designee for each such ex officio member.

8-D:9 Audit. The department of administration and finance shall be audited by the legislative budget assistant as provided in RSA 14:31, II.

## HB 952

permitting the town of Durham to revert to a calendar year accounting period and providing for an appropriate transitional budget. Majority: Ought to pass with amendment; Rep. Tirrell for Durham Delegation. Minority: Inexpedient to legislate. (Rep. Beckett)

Majority: This bill would permit the town of Durham, which has adopted a special law providing for the transition from a calendar tax year to a fiscal year, to change back to a calendar tax year. If the act is approved, a referendum would be held in March or April, 1974.

Minority: This bill is disadvantageous in that it deprives the town of Durham of the benefits of operating on a fiscal year that has been adopted at town meeting and that is the same as that of the University, the state and federal government. It is also disadvantageous to the financing of the government of the town of Durham because it defers collection of one-third of 1973 taxes until December 1, 1974, and two-thirds of 1974 taxes until December 1, 1975. Further, it appears to produce confusion in the sharing of tax costs as between buyer and seller in the event of the sale of real property during the second eighteen month period.

Still further, the complexity of the method of returning to a calendar year will introduce unnecessary confusion at town meeting when the voters are asked to choose an alternative to the present law. Finally, other proposed legislation — HB 953 — provides for a satisfactory alternative to the principal objection to the present law — the one-time collection, by June 1, 1974, of the costs of conversion to a fiscal year.

## AMENDMENT

Amend the bill by striking out section 2 and inserting in place thereof the following:

## 2 Assessment and Collection of Taxes.

### I. On April 1, 1974 taxes shall be assessed as follows:

(a) For school purposes for the school year commencing on July first of the same calendar year;

(b) For town purposes for the eighteen month period from July 1, 1974 through December 31, 1975;

(c) For county purposes for the twelve month period from January 1, 1974 through December 31, 1974.

II. One-third of the taxes assessed for town purposes on April 1, 1973 shall be due and payable on December 1, 1974.

III. Taxes assessed on April 1, 1974 shall be due and payable as follows:

(a) On December 1, 1974

(1) The entire tax assessed for school and county purposes, and

(2) One-third of the tax assessed for town purposes.

(b) On December 1, 1975 two-thirds of the tax assessed for town purposes.

### HB 850

relative to increasing the fees for beer permits and liquor licenses. Majority: Ought to pass with amendment. Rep. Chandler for Ways and Means. Minority Ought to pass with amendment. (Reps. Tripp, Nutt, Sayer and Hall)

Majority: It is time to raise the fees which have not changed for more than forty years. Lesser fees are allowed for seasonal licenses where operations are for less than five months.

Minority: Liquor Commission requested 100% increase in permit fees — and minority feels that this request is not excessive and the permit and license holders can well afford the larger increase. Minority favors amending original bill only to allow lesser fees to seasonal operators.

178:5 — Fees For. The annual fee for each license as provided in RSA 178:3 shall be two hundred dollars.

The required fee shall accompany the application. A permit, other than a special permit, shall expire May thirty-first, unless sooner revoked for cause by the commission. Permits shall not be transferred except with the consent of the commission and each permit, except a solicitor's permit, shall designate the place of business for which it is issued. The commission may issue permits and licenses for one half the established fee to any permittee or licensee who operates his licensed premises for a period of time not to exceed four consecutive calendar months per licensing year.

## The Great Men on the Wall

Rep. Richardson D. Benton

From high on the wall they look down on the House  
With eyes both stern and calm  
Their lot is to see and ponder and judge  
The merits of we who carry on.

They do not vote or sign the board  
Nor inquire of the Chair  
In silence they watch and listen to all  
And they rate us good, poor or fair.

When we've departed the House and the hall is still  
They relax and they chat till the dawn  
Of the nurses and farmers, of bankers and brokers  
And teachers and veterans who talked at the mike, on and on  
and on.

Maybe they talk of Watergate, Pentagon papers, Wounded Knee  
and other stories galore  
And maybe George speaks to Honest Abe, more truth is needed  
in the high places  
They don't make them like us any more.

And hopefully, as Daniel and Franklin reflect  
On the old times, the freshmen and the Reps and Dems who  
daily fill the hall  
They'll judge us fairly on our deeds and say  
Live free or die is still with us  
And the Granite State stands tall.

Spoke up John Hale  
Senator from the days of yore  
They've changed so much in manner, speech and dress  
They question, they bicker, they argue up a storm, but,  
I admire them all, especially the lovely lady legislators  
In their mini-skirts and slacks, Gad what forms!

While waiting to sign the board each day  
I look up at them and feel so humble and small  
I ask the good Lord for lots more wisdom, common sense and  
courage

So that tomorrow I can be just a little more  
Like the great men on the wall.

(4) Any interested party aggrieved by any decision of an appeal tribunal in proceedings under this chapter, who fails within the thirty day period after the date of mailing of such decision, for whatever reason, either to request the commissioner to direct a reopening for the purpose of reconsidering the case on the grounds of fraud, mistake, or newly discovered evidence, or to appeal to superior court under paragraph (1) above, but who at some subsequent time within the ninety days allowed in subsection E of this section requests the commissioner to direct such reopening, may, within thirty days after the date of mailing of the decision of the commissioner which finally refuses the request for reopening of the case, appeal therefrom to the superior court for the county in which is located the employment bureau or branch in which the original claim was filed. Judicial review by said superior court under this paragraph shall be confined to whether or not the commissioner's decision was the result of arbitrary, unreasonable or capricious action, or contrary to law. The appeal under this paragraph shall be perfected by filing a petition with the clerk of said superior court within the time limit above specified, and the petition must set forth specifically the grounds on which it is alleged that the action of the commissioner was arbitrary, unreasonable or capricious, or contrary to law, and no bond shall be required as a condition of entering such appeal. Thereupon the clerk of said superior court shall issue a citation to all interested parties, returnable at any time within ten days after the date of issue. The commissioner shall file with said clerk before trial or hearing a certified copy of the entire record on the claim which shall, upon being so filed, become the record of the case. An appeal may be taken from the decision of the superior court to the supreme court in the same manner as is provided in civil actions.

Upon the final determination of such judicial proceeding, the commissioner shall enter an order in accordance with such determination.

## AMENDMENT

Amend the bill by striking out all after the enacting clause and inserting in place thereof the following:

1 New Chapter. Amend RSA by inserting after chapter 205 the following new chapter:

Chapter 205-A  
Regulation of Mobile Home Parks

205-A:1 Definitions. As used in this chapter unless the context requires otherwise:

I. "Mobile home" or "trailer" means a prefabricated dwelling unit which:

(a) Is designed for long term and continuous residential occupancy;

(b) Is designed to be moved on wheels, as a whole or in sections;

(c) On arrival on the site, is complete and ready for occupancy, except for incidental unpacking, assembly, connection with utilities, and placing on support or permanent structure.

II. "Mobile home park" means any parcel of land under single or common ownership or control which contains, or is designed, laid out or adapted to accommodate two or more mobile homes. Nothing herein shall be construed to apply to premises used solely for storage or display of mobile homes.

III. "Person" means any natural person, corporation, partnership, or sole proprietorship.

IV. "Tenant" means any person who owns or occupies a mobile home and pays rent or other consideration to place said mobile home in a mobile home park.

205-A:2 Prohibition. No person who owns or operates a mobile home park shall:

I. Require any person as a precondition to renting, leasing or otherwise occupying a space for a mobile home in a mobile home park to pay an "entrance" or other fee in an amount greater than the equivalent of one year's rent for said space: provided that, at the tenant's option, such fee may be paid by the tenant on an interest free, monthly installment

basis not to exceed two years in duration; and, further provided, that should the rental agreement be terminated within two years of its inception, the tenant shall be discharged from any obligation to pay the remaining balance of such fee, or if the tenant at the time of such termination has paid more than what would have been due at that time under an interest free two year installment plan, a sum equal to the excess shall be returned to the tenant within ten days of the termination of the rental agreement.

II. Deny any resident of a mobile home park the right to sell at a price of his own choosing, said resident's mobile home within the park or require the resident or purchaser to remove the mobile home from the park solely on the basis of the sale thereof. The park owner or operator may reserve the right to approve the purchaser of said mobile home as a tenant, but such permission may not be unreasonably withheld, and the park owner or operator shall not exact a commission or fee with respect to the price realized by the seller unless the park owner or operator has acted as agent for the mobile home owner pursuant to a written contract.

III. Require any tenant to purchase any goods or services, including but not limited to fuel oil, paving, snow plowing, dairy products, laundry service, baker products, and food products, from any particular person or company;

IV. Prevent any person or company from selling to or delivering to or otherwise supplying and servicing any tenant with his or its goods or services, or make any charge or request any fee from any such person or company for such activities; provided, that a park owner or operator may prohibit or regulate the soliciting or peddling of sales, goods or services within the park premises.

V. Require any tenant, or person seeking space in the mobile home park, to purchase a mobile home from any particular person.

VI. Fail to disclose to each prospective tenant, in writing and a reasonable time prior to the entering into of any rental agreement, all terms and conditions of the tenancy, including rental, utility, entrance and service charges.

205-A:3 Termination of Tenancy. No tenancy, however

created, on or after the effective date of this section, in a mobile home park may be terminated by a mobile home park owner or operator except upon giving notice in writing to the tenant in the manner prescribed by RSA 540:5 to remove from the premises within a period of not less than sixty days; provided that upon grounds of nonpayment of rent, utility charges or reasonable incidental service charges, a tenancy may be terminated upon giving thirty days' notice.

205-A:4 Permissible Reasons for Eviction. After the effective date of this section, a tenancy may be terminated by a park owner or operator pursuant to this chapter only for one or more of the following reasons:

I. Nonpayment of rent, utility charges or reasonable incidental service charges; provided that no action for possession shall be maintained if prior to the expiration of a notice to quit the tenant shall pay or tender all arrearages due plus fifteen dollars as liquidated damages.

II. Failure of the tenant to comply with local ordinances or state or Federal law or regulations relating to mobile homes or mobile home parks, provided that the tenant is first given written notice of his failure to comply with said laws or regulations and a reasonable opportunity thereafter to comply with said laws or regulations.

III. Damage by the tenant to the demised property, reasonable wear and tear excepted.

IV. Repeated conduct of the tenant, upon the mobile home park premises, which disturbs the peace and quiet of other tenants in the mobile home park.

V. Failure of the tenant to comply with reasonable written rules and regulations of the mobile home park as established by the park owner or operator in the rental agreement at the inception of the tenancy or as amended subsequently with the written consent of the tenant, or without his consent upon three months' written notice; provided that the tenant is first given written notice of his failure to comply and a reasonable opportunity thereafter to comply with said rules and regulations. Nothing in this section, however, shall be construed to permit a park owner or operator to vary the terms of a written or oral rental agreement without the express written consent of the tenant.

VI. Condemnation or change of use of the mobile home park.

205-A:5 Reason to be Specified. The mobile home park owner or operator shall specify in the notice required by this chapter the reason for the termination of any tenancy in such mobile home park.

205-A:6 Fees, Charges, Assessments. A mobile home park owner or operator shall fully disclose in writing all terms and conditions of the tenancy including rental, utility and service charges, prior to entering into a rental agreement with a prospective tenant. No charges so disclosed may be increased by the park owner or operator without specifying the date of implementation of said increase, which date shall be no less than sixty days after written notice to the tenant.

Nothing in this section, however, shall be construed to permit a park owner or operator to vary the terms of a written or oral rental agreement without the express written consent of the tenant.

205-A:7 Security Deposits. No owner or operator of a mobile home park shall require as a security or damage deposit an amount greater than one month's rent.

205-A:8 Purchase of Equipment. No mobile home park owner or operator shall require a resident therein to purchase from any particular person underskirting, equipment for tying down mobile homes or any other equipment required by law, local ordinance or regulation of the mobile home park. However, the park owner or operator may determine by rule or regulation the style or quality of such equipment to be purchased by the tenant from a vendor of the tenant's choosing.

205-A:9 RSA 540 Applicable Where Not Inconsistent. The provisions of RSA 540 shall apply to tenancies in mobile home parks except where such application would produce a result inconsistent with or contrary to the provisions of this chapter.

205-A:10 Waiver Prohibited. No lease or rental agreement, oral or written shall contain any provision by which the tenant waives any of his rights under this chapter, and any such waiver shall be deemed contrary to public policy and shall be unenforceable and void.

205-A:11. Penalty. Any person who violates any provision of RSA 205-A:2 or who willfully and without reasonable cause files a complaint unjustifiably alleging a violation of any provision of RSA 205-A:2 shall be fined not more than one thousand dollars for each offense, the provisions of RSA title LXII to the contrary notwithstanding. Each day in which a violation of RSA 205-A:2 occurs shall constitute a separate offense.

205-A:12 Enforcement. Any police department or agency, or the consumer protection division of the attorney general's office may bring an action to enforce the provisions of this chapter.

205-A:13 Unfair Trade Practice. Any violation of the provisions of RSA 205-A:2 shall also constitute an unfair trade practice within the meaning of RSA 358-A and may be enforced as provided therein.

205-A:14 Other Actions Saved. This chapter shall not be construed to affect unfair trade practices otherwise actionable at common law or under other statutes of this state.

2 Effective Date. This act shall take effect sixty days after its passage.

Majority: Ought to pass with amendment; Rep. Donnelly for Ways and Means. Minority: Inexpedient to legislate (Reps. Hall, Nutt and Nardi)

to establish a state sweepstakes, gambling and gaming commission and making an appropriation therefor. Majority: Ought to pass with amendment; Rep. Chandler for Ways and Means. Minority: Inexpedient to legislate. (Reps. Hall, Cunningham, Anne B. Gordon, Tripp, Nardi and Nutt)

Majority: A 9-6 committee vote, this bill was approved because the committee majority recognized that it will undoubtedly bring increased revenue for towns and cities.

There is a specific local option referendum provision written into the legislation.

The bill as amended recognizes that certain gambling should be under very tight State control, staffed and supervised by state employees, preventing organized criminal elements from infiltrating our state.

Minority: Decision on whether or how the North Country should be developed should not rest on so unstable a base as that provided by organized gambling. This type of gambling with its potential problems of control and administration is not needed in this state.

**HB 957**

limiting the sale of real estate in the university system. Inexpedient to legislate. Rep. Hager for Education.

While this legislation might legalize the "fair market value" as "determined by the State Tax Commission" this would not fulfill the fiduciary responsibilities of the trustees. If the price was not felt to be appropriate by a prospective donor, this source of gifts to the University and, thus to the support of education to our young people, would be badly hurt. The University would thus be returning to the State for even further support be it for scholarship assistance or for general educational expenses.

The Board of Trustees has already adopted a policy under which the University Vice President-Treasurer is required to notify the chief municipal officer of any community in which University land is to be sold. As a matter of practicality, any department of the State which, wishing to acquire University land, makes a direct approach, the transfer is made to mutual satisfaction. Usually, as one would expect, these approaches have been made by the Right-of-Way Division of the Department of Public Works and Highways. When the land required is a parcel held under general University funds, often the transfer is made without cost; when the lands are part of a trust, an agreeable figure is reached.

The University has been making strenuous efforts to increase its outside support with considerable success. For the first time in history, during the current year UNH Fund Campaign proceeds will exceed \$300,000. The majority of these gifts will be restricted but they all do contribute to the over-all program of support of our students and to their education. In addition, just announced was the establishment of the Life Income Trust Program which should lead to substantial gifts, though by the nature of the program, they will be deferred. We should not take any steps now legislatively, which would hamper the confidence of the donor in the University and in the sanctity of his gifts or bequests.

Resolution adopted.

The commission shall make a biennial report of its findings to the legislature.

14 Emergency Situations. Amend RSA 149:10 by inserting in line five after the word "waters" the following (or ground waters) so that said section as amended shall read as follows:

149:10 Emergency. In case the commission finds that an emergency has arisen from failure of or casualty to facilities for the control of pollution, the commission may, if it finds that the best interests of the public will not unduly suffer, authorize any person for a reasonable time to discharge sewage or other wastes into surface waters or ground waters, although such discharge would have the effect of lowering the quality of such waters below the adopted classification.

15 Allocation of Costs. Amend RSA 149-B by inserting after section 5 the following new sections:

149-B:6 Equitable Allocation of Costs. Notwithstanding any other provision of this chapter, the commission shall not approve any contribution under RSA 149-B:1 unless it shall first have determined that the applicant:

I. Has adopted or will adopt a system of charges to assure that each recipient of waste treatment services within the applicant's jurisdiction, as determined by the commission, will pay his proportionate share of the costs of operation and maintenance (including replacement) of waste treatment services provided by the applicant;

II. Has made provision for the payment to such applicant by the industrial users of the treatment works, of that portion of the cost of construction of such treatment works (as determined by the commission) which is allocable to the treatment of such industrial wastes to the extent attributable to the federal share of the cost of construction; and

III. Has legal, institutional, managerial, and financial cap-

ability to insure adequate construction, operation, and maintenance of treatment works throughout the applicant's jurisdiction.

149-B:7 Regulation by Commission. The commission shall issue regulations applicable to payment of waste treatment costs by industrial and nonindustrial recipients of waste treatment services which shall establish:

I. Classes of users of such services, including categories of industrial users;

II. Criteria against which to determine the adequacy of charges imposed on classes and categories of users reflecting all factors that influence the cost of waste treatment, including strength, volume, and delivery flow rate characteristics of waste.

149-B:8 Retention of Funds. The grantee shall retain an amount of the revenues derived from the payment of costs by industrial users of waste treatment services, to the extent costs are attributable to the federal share of eligible project costs provided pursuant to this chapter as determined by the commission, equal to:

I. The amount of the nonfederal cost of such project paid by the grantee plus;

II. The amount determined in accordance with regulations promulgated by the commission necessary for future expansion and reconstruction of the project, except that such retained amount shall not exceed fifty per centum of such revenues from such project.

III. That portion of revenues retained by the grantee attributable to paragraph II of this section, together with any interests thereon, shall be used solely for the purposes of future construction, expansion, and reconstruction of any treatment works within the grantee's jurisdiction.

149-B:9 Adoption of Federal Regulation. The commission may adopt as state regulations any federal regulations or guidelines issued by the administrator of the United States Environmental Protection Agency relative to the subject matter of this chapter.

149-B:10 Action by Attorney General. In the event the commission determines, following public hearing, that any in-

dustrial user of a treatment works subject to this chapter has failed, in whole or in part, to reimburse the owner of the treatment works as provided in this section, and that the owner either has failed to take available legal recourse to compel compliance, or is incapable of doing so, then the commission may request the attorney general to institute appropriate legal action against such user in the name of the state and the owner of the treatment works.

prohibiting compulsory abortion and prohibiting compulsory performance of the same. Majority: Ought to pass; Rep. Donalda K. Howard for Public Health and Welfare. Minority: Inexpedient to legislate. (Reps. Haller, Goodrich, Helen F. Wilson, Barbara C. Thompson and Pierce)

Majority: This bill, if enacted, would allow physicians and assistants to refuse to perform or participate in, an abortion, and allow a pregnant female to refuse to have an abortion regardless of any circumstance surrounding the pregnancy.

Minority: Legal ramifications of bill are unclear. Compelling a person to have an abortion is a violation of assault laws and is punishable under those statutes. Medical practice standards and hospital policies already forbid forced participation in abortion.

Rep. Nardi moved that the report of the minority, inexpedient to legislate, be substituted for the report of the majority, and spoke in favor of the motion.

XII. "Live born" shall refer to an infant removed alive from its mother's womb.

132:20 Decision for Abortion. The abortion decision and its effectuation, at any time, during the pregnancy must be made and carried out by a physician licensed to practice medicine in the state, who, in turn, must have the consent of the patient.

(b) It is performed in a hospital; and

(c) The woman submitting to the abortion has filed prior written consent, and if said woman is a minor, said prior written consent shall be joined in by her parents or person in loco parentis; and

(d) The father of the unborn life, if he is known, shall file prior written consent with the physician, or hospital; and

(e) The unborn life shall be subjected to full pathological study which shall be reported and permanently recorded by the hospital or clinic.

III. During the third trimester of pregnancy for reasons of medical judgment provided:

In no event, except in the case of medical emergency involving the life of the pregnant woman, shall any abortion be performed unless at least a twenty-four hour period has first elapsed between the signing of the written consent, by the required consenting parties, and the actual performance of the abortion.

V. In no event shall an abortion ever be performed upon a woman who is non compis mentis except if necessary to save her life or health, and after obtaining the written consent of her parents or person designated as her legal guardian.

132:22 Right to Oppose Abortion. No physician, other medical personnel, or other person shall be required to participate in or perform an abortion; nor shall any hospital or clinic be required to admit a patient for the purpose of performing

an abortion; nor shall such refusal be grounds for dismissal, or for civil or criminal action; nor shall any person be discriminated against on employment because of his or her belief on abortion.

132:23 Medical Certification of Stages of Pregnancy. It shall be the responsibility of the attending physician to determine with reasonable medical certainty which stage the pregnant woman receiving the abortion is in and to certify that determination as part of any written reports required by him by the state division of public health or the hospital in which the abortion is performed.

132:24 Recording and Reporting Abortion Health Data. The physician performing an abortion in a hospital or clinic in accordance with the provisions of RSA 132:21, I or the chief executive of the hospital in which an abortion is performed in accordance with the provisions of RSA 132:21, I, II and III, shall complete and forward to the state bureau of vital statistics, division of public health, a record of abortion as published by that bureau. Records of abortion shall be kept on file by the state bureau of vital statistics for purposes of statistical analysis. ## REMARKS BY

Arthur F. Mann, Chairman, Committee on Public Works

Mr. Speaker:

I am very disappointed in the action of the House Appropriations Committee on HB 811. The Committee on Public Works naturally has a very strong interest in the amendments proposed by the House Appropriations Committee to HB 811, Capital Budget Bill, and cannot agree with the number and size of the reductions. It seems clear that the hard work and long hours spent by your Public Works Committee in developing what we thought to be a sound and reasonable bill have not been fully considered by House Appropriations in the brief time they have had to examine this bill.

The House Public Works Committee began in January to examine in detail all of the Capital Budget requests submitted by Departments and agencies of State Government. Many field trips were made to examine proposed capital projects.

We cannot agree with a number of the deletions made by the House Appropriations Committee. However, it seems unwise at this time to try to rebuild what we in the Public Works Committee think is a necessary capital appropriations budget and to try to do it on the floor.

In these circumstances, the Public Works Committee feels that it will be necessary to work with the Senate Public Works Committee and the Senate Finance Committee to reinstate some projects which are urgently needed and are in the best interest of the state to begin now and not delay.

I thought it appropriate to advise the House of the Public Works Committee's position on the amendments offered at this time and to indicate that we feel an obligation to try to reinstate a number of capital project items about which we have a lot of information and which we feel are necessary ongoing programs of the state.

The Speaker read to the House Legislative terms by Rep. Betty Easley of Tallahassee.

#### SAYING WHAT YOU DON'T MEAN, MEANING WHAT YOU DON'T SAY

Times Bureau

TALLAHASSEE — "The whole idea was to have a small laugh," smiled Rep. Betty Easley, R-Harbor Bluffs, who slipped into each House member's mailbox Monday a tongue-in-cheek glossary of legislative terms.

Written by Mrs. Easley, a freshman, it was a five-page mimeographed booklet designed, she said, "to clarify, amplify and stultify . . . legislative words and phrases. You get to where some of these things have meaning to them," she said, "and they generally mean the same no matter who says it."

Her booklet got a laugh from most House members, especially Rep. Marshall Harris, D-Miami, the fast-talking Appro-

priations Committee chairman, who was the butt of most of Mrs. Easley's terms. "He liked it," she said. "I always kid him about talking 450 words a minute." Some of the definitions:

Request to co-introduce — I wish I'd thought of that.

Quorum Call — All my committed votes have gone out for coffee.

My staff is preparing a bill that speaks to this matter — I've had a Kelly girl in for two days trying to decipher my handwriting.

Temporarily pass — I don't want to talk about it.

I have no pride of authorship — I don't think I can get it out unless it's a committee substitute and I may be ill.

This is a friendly amendment — like Jack the Ripper.

I'm not wedded to the idea — I need help.

Let me clear this up — Marshall Harris is talking.

Take a walk — An urgent need for exercise generated by an equally urgent desire for instant invisibility.

There is no possible way anybody can vote for a stupid bill like this if you all understand the problem — Marshall Harris talking.

Philosophically, I'm with you — I'm going to vote no on your bill.

I appreciate what you're trying to do — I'm going to vote no on your bill.

I view this bill with mixed emotion — I haven't the foggiest idea.

Vote yes and strike a blow for freedom — I've thought of every argument I could and this is all I have left.

My mail is running 4 to 1 in favor of this — I've had one postcard and a whisper in the hall.

Revisit this chapter — We goofed and need to make a correction or two.

Housekeeping amendment — Strike everything after the enacting clause.

Let the people speak to this issue — I wouldn't touch it with a 10-foot pole.

I'm not a lawyer but — You're about to get a legal opinion.

Rep. Sara M. Townsend moved that the list be printed in the Journal.

Adopted.

## RESOLUTION

*Whereas*, life was always a game, a wonderful game, for Fletcher Low; and

*Whereas*, in his lifetime he played five games well — infielder for the pennant winning Braves; professor of chemistry for Dartmouth College; Selectman for the town of Hanover; member of the General Court; and finally teacher extraordinary for the Job Corps in Appalachia; and

*Whereas*, he never held that one game was more important

than another, one man or one boy more worthy than another, but liked them all, and believed one could do no better than play his best for the team, take his lumps and his laughs with the rest; now therefor be it

*Resolved*, that we, his former teammates in the House of Representatives, do hereby salute his many great days and extend to him our hands as he crosses home plate for the last time.

Unanimously adopted.

### JOINT RULES OF THE 1973 SESSION

1. The Joint Committee on Rules shall comprise the Committee on Rules of the Senate and of the House. It shall be the duty of the Joint Committee on Rules to recommend to the two bodies the day and time to which the two bodies shall adjourn, and such other matters as be referred to it by either or both bodies.

2. When a convention of the two bodies is to be formed, whether by a requirement of the Constitution, or by a vote or resolution of the two bodies, a message shall be sent from the House of Representatives to the Senate, giving notice when the House will meet the Senate in convention. As soon thereafter as the convenience of the Senate will permit, they will attend in the House. The Speaker of the House shall be chairman of the convention, and shall state the reasons for forming the convention. When the House and Senate are thus formed in convention, the rules adopted as the rules of the House shall be considered the rules of the convention, so far as they may be deemed applicable, and the convention shall accordingly be governed thereby.

3. Messages shall be sent by such person or persons as each body may deem to be proper. Messages from either body shall be received from the other at all times, except when engaged in putting a question, in calling yeas and nays, or in counting the ballots. When a message shall be *received* from either body to the other it shall be announced *by the presiding officer*.

4. While bills are on their passage between the two bodies, they shall be under the signature of the clerk of each body respectively.

5. Any bill concerning state retirement systems shall not be introduced unless there is attached thereto a fiscal note based upon estimates obtained from a qualified and approved actuary as to total cost involved.

6. Every bill repealing or modifying any act or statute shall refer to the same: (a) if contained in the Revised Statutes Annotated by the section and chapter thereof and if the 1955 adopted Revised Statutes Annotated has been amended by stating "as amended": (b) if not contained in the Revised Statutes Annotated by the section and chapter and the session of the legislature when the same was passed expressed in words clearly with full reference to all amendments in sequence so that it shall not be necessary to refer to any other act or statute to ascertain the meaning thereof. The title of every bill shall indicate, in brief and comprehensive form, the subject-matter contained in the bill. It shall be the duty of the presiding officer of each body of the legislature to require all such bills to be made in conformity with this rule, before putting any vote thereon, except to commit or amend.

7. When a bill or resolution which shall have passed in one body is rejected in the other, notice thereof shall be given to the body in which the same shall have passed.

8. After each body shall have adhered to its disagreement, a bill or resolution shall be considered lost.

9. Each body shall *on request* transmit to the other all papers, or *copies thereof*, on which any bill or resolution may be founded.

10. All bills and joint resolutions, which do not make an appropriation, shall be reported to the clerk for action in the originating house no later than the fourth Thursday in May and final action on all such bills and joint resolutions shall be taken by said house no later than the third legislative day after said date, provided that if any bill is sent to a committee of conference further action may be taken subsequent to said date by the House and Senate.

11. No bill which has been indefinitely postponed shall be admitted under color of amendment by a committee of conference or otherwise.

12. No bill, joint resolution, concurrent resolution to

amend the constitution, claim outstanding on the first day of the session or petition relating to new business shall be introduced in the session unless its subject matter has been received for drafting by Legislative Services on or before the *twelfth* legislative day of the session, nor shall such matters be introduced in either branch of the legislature from state officers, departments or agencies unless they have been previously filed with Legislative Services prior to October first preceding the session, unless reported by the Committee on Rules; provided that this rule may be suspended in either house whenever two-thirds of the whole number of elected members shall, on division taken, vote in favor thereof, and not otherwise.

13. There shall be a committee for the purpose of enrolling bills, consisting of *four* members of the House of Representatives and *three* members of the Senate. All bills that have passed both bodies shall be delivered to said committee, be by them enrolled, carefully examined and reported to the respective bodies; and shall be signed by the Speaker of the House of Representatives and the President of the Senate. If the examination of a bill shall disclose any clerical error or formal imperfection, said committee shall report it back to the respective bodies, with such amendments as are required to correct the same; and any measures so reported shall be subjected to amendment in those particulars and in no other respect.

14. A public hearing on any bill may be held jointly by the Senate and House committees. The Speaker or President of the body in which the bill originates may request the President or Speaker of the other body to authorize the appropriate committee of that other body to sit at a joint public hearing. Joint hearings in no way preclude the bill being reheard by the committee of either body. Presiding over the hearings shall be the chairman of the committee calling for the joint hearing or his designee without regard as to whether a House or Senate bill is being heard. The Speaker or the President may authorize standing committees of their respective bodies to meet on non-legislative days as needed.

15. Effective date of bills. Except as hereinafter provided, each Senate and House bill shall in terms be made effective not earlier than sixty calendar days after the date of its passage. Any bill requiring another effective date than prescribed herein may be amended on second reading by a majority vote of either the

Senate or House and said amendment may provide for a bill to become effective on passage or on a specific date. Provided, however, that the limitation herein provided as to effective dates shall not apply to (1) bills of an emergency nature, (2) tax bills, (3) private acts affecting one particular town, city or political subdivision, (4) bills making appropriations of money for ordinary or capital expenses of state agencies, or (5) bills affecting fees for licenses or certificates.

16. A bill or resolution may be recalled from the Governor at any time before it is signed by him, by a majority of the Senate or House, whichever last had possession.

17. Concurrent Resolutions Proposing Constitutional Amendments. Proposed constitutional amendments shall be submitted as concurrent resolutions entitled: "Concurrent Resolution proposing a Constitutional Amendment Relating to\*\*\*," and with a resolving clause in the following form: "Be it Resolved by the (Senate) (House of Representatives) the (House of Representatives) (Senate) concurring that the Constitution of New Hampshire be amended as follows": Concurrent resolutions proposing a constitutional amendment shall truly propose to amend or supplement the Constitution and contain only subject matter which genuinely belongs in the fundamental law of the state: it being the intention of this rule to exclude therefrom all subject matter which is legislative in nature and all questions which are submitted under the guise of constitutional amendments for the primary purpose of obtaining a popular referendum. Each concurrent resolution shall set forth the text of the new matter to be inserted in the Constitution and also the text of a question summarizing the amendment, to appear on the ballot proposing such constitutional amendment. The General Court shall specify the particular election at which such question is to be submitted to the voters, and shall state whether it is to appear on the regular or a separate ballot. All such concurrent resolutions shall be read a first and second time by title and referred to the appropriate standing committee for public hearing and report. Amendments to such a resolution shall be in order while the measure is still on second reading. On the question of ordering such a resolution to third reading and on the question of final passage, the President and Speaker shall require a division vote unless a roll call is recorded under the rules and completed, adoption of either of said questions shall

require a vote of three-fifths of the entire membership of each house. In case of disagreement between the two bodies, such concurrent resolutions shall be subject to the usual conference committee procedure. Such concurrent resolution, if adopted by the required constitutional majority of each body, shall be engrossed in the usual form and signed by the Speaker and the President, and shall be submitted to the Secretary of State for appropriate action and for submission to the voters. Such concurrent resolutions shall be made a part of the permanent legislative records.

18. A concurrent resolution proposing a constitutional amendment, as provided by Rule 17 shall be read into the Senate or House where it originates not later than the second Thursday of March first following the assembly of any General Court. All hearings on such resolutions may be held jointly as provided under Joint Rule 14 by the appropriate standing committees of the Senate and House provided that in the event the resolution is amended in the first body and the second body chooses to have a second hearing this too may be joint. The committee vote on the resolution shall be by each committee and not by the committees jointly and passage in final form shall be completed by both bodies not later than the last legislative day of April of the calendar year in which the resolution was introduced. After said date in April no further action may be taken by either house on the resolution provided that if in the opinion of the attorney general, or an advisory opinion from the supreme court states that, the form of the question in the resolution needs to be amended, the two bodies may amend the resolution in such particular only by affirmative vote of no less than three-fifths of the entire membership of each house taken on division or roll call vote. A motion to so amend shall be in order in either body, notwithstanding any other rule to the contrary, at any time prior to the prorogation of the assembly of that General Court.

19. Any bill making appropriation for the administration, operation and maintenance of any department or departments for each or any fiscal year of the biennium, or a bill making general appropriation for the cost of land, public improvements and other capital outlays, itemized by specific projects or classes of projects of the same general character (the so-called Capital Budget Bill) shall be introduced into either

the Senate or the House no later than May 1st, and any such bill shall be reported for action to the clerk in the originating house no later than May 31st and final action on all such bills and joint resolutions shall be taken by said house no later than the third legislative day after said date. The second house shall take final action on any bill no later than June 21st, provided that if any such bill is sent to a conference committee further action may be taken subsequent to said date by the House or Senate.

20. Conference Committees on Budget Bills. The report of the conference committee on either the general appropriation bills or the capital improvements bill shall be printed in the journal or a supplement thereto before action is taken on the floor in either body on said report.

21. The report of a committee of conference on a concurrent resolution proposing an amendment to the constitution shall be first returned to that house which acceded to a request for a committee of conference. The report shall be recorded in full in the journal *or supplement* of that house to which it is first returned and made a special order of business at the late session of a subsequent day. After said report has been adopted by the house to which it was first returned, it shall then be transmitted to the other house for its action.

22. No Joint Rule shall be suspended unless two-thirds of the members present, in each house, voting separately, vote in favor thereof.

23. No action may be taken in either house on any committee of conference report until a copy of said report has been delivered to the seats or placed on the desks of all members.

24. All committees of conference shall consist of seven members; four members of the House appointed by the Speaker and three members of the Senate appointed by the President except for committee of conference on the operating budget, which shall consist of eight members; five from the House, three from the Senate. All committee of conference reports must be unanimous.

25. There is hereby established a joint screening committee of the General Court, consisting of four members of the House appointed by the Speaker, and three members of the

Senate appointed by the President. If more than one member of the General Court requests that legislation of an involved and voluminous nature be drafted on the same subject matter, but with some variations so that the main body of each bill, even though drafted separately, would be practically duplicates, the office of Legislative Services shall advise the joint screening committee established by this rule of such a situation. The committee, after consultation with the requesting members, shall endeavor to have them agree to the drafting of one bill.

26. Members of both houses may sponsor legislation jointly. Proposed legislation will be titled House Bill or Senate Bill according to the first named sponsor.

27. Clarification of Legislative days. Legislative days are figured in each house independently based on the actual days that either house has been in session.

28. Every bill or resolution in either body making an appropriation shall, after having been placed on second reading and thereafter referred to the respective appropriations committee or finance committee for further consideration, be messaged to the other body in the form of an extra chairman's copy and introduced, put on first and second reading, referred to committee where public hearings may be held. The bill or resolution shall then be held by said committee until final action on third reading has been taken by the body into which the bill or resolution was originally introduced. Upon such final passage, the original of said bill or resolution shall be re-introduced into the second body but for purposes of satisfying the rules requiring first and second readings, referral to committee and public hearings, the previous action on said bill or resolution shall be deemed to satisfy those requirements. Thereafter the committee in the second body to whom the bill or resolution was referred shall take action on the bill or resolution from that point according to all other rules of the house of representatives, the senate and the joint rules. If the bill or resolution was amended in the original body on second or third reading, the chairman of the committee to whom the measure was referred in the second body may hold a second public hearing at his discretion but shall not be required to hold a second hearing. This rule may be suspended by either house by majority vote.

29. A sponsor of any bill or joint resolution referred to a committee of conference shall, upon his request, be granted a hearing before said committee prior to action thereon.

23:7 Establishing Compensation. Every county shall have the power to establish salaries and expenses or other compensation paid to the county attorney, assistant county attorney, sheriff, chief deputy sheriff, deputy sheriffs, register of deeds, treasurer, deputy treasurer, and county commissioners. Said salaries shall be established not less than biennially by the county convention, upon recommendation of the executive committee. Notwithstanding any other provisions of law to the contrary, in counties in which any of the aforementioned officers receive fees and/or mileage for services performed by them as part of their compensation, the county convention may put such officer on a salary and expenses basis. Said salary shall be payment in full for all his services to said county. The county shall provide him with suitable transportation and he shall not be allowed the established rates for mileage allowable to other sheriffs. He shall be allowed reasonable expenses incurred during the performance of his duties and such expenses shall be subject to the approval of the county attorney. For the service of civil writs and other process which he may perform, he shall collect the usual fees allowed for such services and mileage and shall pay over directly to the county treasurer all such fees and mileage charges at the end of each month. He shall in his annual report to the county commissioners report the number of civil writs and other process served and the total amounts collected in fees and mileage charges paid to the treasurer during the calendar year.

#### UNANIMOUS CONSENT

Rep. Richard L. Bradley addressed the House by unanimous consent.

Rep. Twigg moved that the remarks of Rep. Bradley be printed in the Journal.

Adopted.

Thank you, Mr. Speaker, and thank you, members of the House for the Unanimous Consent. I come here today to tell you a very, very funny story about a little note up in the middle of page 24 in the amendment to HB 888 which was in your seat pockets today. I didn't realize it was so funny this little announcement, this little note here, so I went to the Senate Finance Committee to ask for an explanation and the minute I showed it to two members of that committee, they laughed in my face and thought it was a big joke.

It strikes them funny that SB 18, which had a fair hearing and a lot of discussion in committee and a fair debate here in the House the other day and then was killed by a fair vote, should suddenly come back sneaked into this amendment to the budget by the Senate Finance Committee.

Now, I have no personal feelings against any one who disagreed with me on this issue and if it had gone the other way, I would still have no personal feelings against them. You recall the debate on this business of whether we would have reflectorized number plates or not. However, this action makes

a mockery, a total mockery, of the entire legislative process that we think we have been carrying out here during the last six months. It goes to show that you can come down here, introduce a bill and do your honest level best to fight it through — win or lose. If you're lucky enough to win, you get it through the House. You think you have done something that you were elected to do, but the final say will be over in the Senate. If the bill of yours is killed, you are out of luck, but if you are a multi-million dollar outfit like 3M and can come here with a full lobbying crew and can hire lobbyists, you can lobby for a few months on this, the bill is not killed. All you've got to do is take it around to the back door and they will put it in for you.

Now this thing will eventually be settled by a Committee of Conference. I'm doubtful as to how much influence this House will have at that time. Perhaps this will stand and perhaps the bill that we killed the other day, in spite of our action, will become law. We will have reflectorized number plates which won't do any great harm and I doubt if they will do any great good either and 3M company will have a good fat contract to pay for their lobbying efforts. I come here today not to think that I can change the tone of affairs and the tone of politics in the way they have gone but because it makes me mad right down to the bottom of my feet to think that this state, and especially these children who we see taken through this State House week after week on tours and explained to how a bill is introduced and how it is heard and how it is voted on and how it is passed or killed and how it goes to the other branch and has a fair hearing and is either passed or killed. That is the way it should be. That is the way these kids are told but it burns me up to think that they are being lied to. If we and our constituents can't do something about this thing and if this kind of sneaky business can continue, our State is in a bad way. Thank you for listening to me.

### RESOLUTION

V. "Extension of pre-existing development": An extension of any pre-existing development shall be deemed a development which may substantially affect environment when the extension itself otherwise falls within the meaning of that phrase. In the case of a development constructed or established after the effective date of this chapter, which initially, because of its size, is exempt from this chapter by virtue of any provision hereof, is at any time extended or enlarged so that the total development, viewed as a whole, would not be exempt from this chapter, then both any such enlargement or extension and any undeveloped portion of the original development shall be required to comply with the provisions of this chapter. Provided, however, that the provisions of this chapter shall not apply in those cases in which such initial development was constructed in a municipality which had a zoning ordinance and subdivision regulations in effect at the time of such initial construction and such construction complied therewith to the extent applicable. Further provided that nothing contained in this chapter shall be construed to include within its definition any land area, equipment or facilities used for the generation, transmission or distribution of electricity or communications which is subject to the provisions of RSA 162-F.

I. Hearings held pursuant to RSA 12-E:2, IX, and RSA 12-E:7 and 11 shall be conducted by a hearing commission consisting of five persons appointed by the governor with the advice and consent of the council. Two of the members shall represent the general public, one of whom shall be the chairman; the third member shall have experience in banking or home building or land development interests in the state; the fourth shall have experience in agricultural, forestry interests; and the fifth shall represent conservation or environmental protection interests of the state. Such persons shall not be salaried state officers or employees. Commission members shall serve for a term of five years, provided that initial appointments shall be for a term of one year, two years, three years, four years and five years. Such members shall serve until a successor is appointed and qualified. Any vacancy shall be filled for the unexpired term by governor and council. Hearings shall be conducted by not less than three members of the commission, but all commissioners shall review transcripts, evidence, recommendations of the department and the council or resources and development and otherwise participate fully in the preparation of proposed findings and decisions in each case. Such proposals shall be recommended by majority vote of the hearing commission.

Any development which may substantially affect environment for which, prior to the effective date of RSA 12-E:6, any permit, approval or license was required to be obtained pursuant to the provisions of municipal zoning ordinances or subdivision regulations, or of provisions of any statutes governing the water supply and pollution control commission, or any of them, shall not be subject to this chapter under any of the following circumstances:

I. Developments shall be excluded that have been approved prior to the effective date of RSA 12-E:6 by any agency with approval authority under current law.

II. Developments shall be excluded for which application has been made prior to the effective date of RSA 12-E:6 to any agency with approval authority under current law and which is pending final approval, if, within thirty days after said effective date, notification that the developer intends to claim such exclusion is given to the department accompanied by a copy of the pending application.

VETO MESSAGE FROM THE GOVERNOR

June 18, 1973

To the Honorable Members of the General Court:

With regret I return to you herewith, without my signature, House Bill 309, an act relating to the confidentiality of business profits tax records and filings, with the following objections thereto noted.

1. This bill would make it impossible for the Governor to faithfully execute the laws within a specific area as charged by Section 41, Part II of the Constitution.

2. The Governor and Council to whom power to check tax records is given by RSA 77-A:16 in the exercise of their supervisory power, would be replaced by an appointive official, unanswerable directly to the voters, who would be given vague power to pierce the wall of tax secrecy in connection with an action or proceeding under Chapter 77-A.

3. This substitution of an appointive official for the duly elected Governor and Council would be apt to create serious problems in the future administration of the business profits tax division.

Respectfully yours,  
Meldrim Thomson, Jr.

The clerk read the message in full.

Question being — shall HB 309 pass notwithstanding the veto of the Governor.

Rep. Joseph M. Eaton spoke in favor of sustaining the veto.

Reps. Underwood, Spirou, Gallen, Currier, John T. Winn, Russell C. Chase, Coutermarsh, Charles B. Roberts, Raymond, George B. Roberts, Jr. and Zachos spoke against sustaining the veto.

(discussion)

Reps. George I. Wiggins, Stevenson, Read, Kopperl, Lawton, Twigg, Brungot, Sayer, Nelson, Albert C. Jones, Merrill, George E. Gordon, Parr, Daniell and Richard L. Bradley spoke in favor of sustaining the veto.

conforming civil actions commenced by attachment and/or trustee process to constitutional due process limitations  
and providing for a study of current attachment  
procedures by the judicial council.

Amend the bill by striking out all after the enacting clause and inserting in place thereof the following:

1 New Chapter. Amend RSA by inserting after RSA 511 the following new chapter.

**Chapter 511-A**

**Pre-Judgment Attachment Procedure.**

511-A:1 Attachments; Limitation. In all civil actions, except as otherwise provided in RSA 536, a defendant shall be given notice and an opportunity for a preliminary hearing before any pre-judgment attachment including attachments of property held by a trustee shall be made.

511-A:2 Notice of Intent. In all civil actions or suits in equity where the plaintiff desires to make pre-judgment attachments, the plaintiff shall cause to be served on the defendant and to be simultaneously filed with the court a notice, which

shall be incorporated prominently in the writ or order of notice, which shall read substantially as follows:

I. The plaintiff intends to attach the defendants real estate, property, goods, rights or credits, to secure any judgment or decree which may be obtained on the action or suit.

II. The defendant may object to the making of such attachments and is entitled to a hearing thereon.

III. If the defendant desires to object to the making of attachments, such objection shall be made on or before the return date of such writ or orders of notice.

IV. If the defendant fails to object by such return date he will be deemed to have waived his objections.

511-A:3 Hearing by Court. When a defendant objects to the making of attachments, the court shall set a hearing on such objection within fourteen days of the receipt of such objection. Upon hearing, the burden shall be upon the plaintiff to show that there is a reasonable likelihood that the plaintiff will recover judgment including interest and costs, on any amount equal to or greater than the amount of the attachment, and that unless the attachment is allowed, there is a reasonable likelihood that the defendant's assets will be insufficient to satisfy a judgment or decree. Such hearings shall not be bound by the rules of evidence. The court may appoint such masters, referees or magistrates as may be necessary to conduct such hearings.

511-A:4 Order of the Court. If a defendant fails to request a hearing or upon a finding by the court as provided, the court shall issue an order of attachment in such form and to the extent reasonably necessary to secure any judgment or decree which the plaintiff is likely to obtain, to seller with allowable interest and costs.

511-A:5 Filing Attachment. Such order of the court shall be served upon or filed with any trustee, register of deeds, town or city clerk, secretary of state or whenever notice is required to perfect attachments. Such attachment shall be effective as of the time of service or by the order of the court. As between attaching creditors, attachments made in conformity with this chapter shall have priority in the order of service on the defendant of the notice as provided by RSA 511-A:2.

511-A:6 Fraudulent Conveyance. From and after service of the notice provided by RSA 511-A:2 and until the entry of an order by the court as provided by RSA 511-A:4, the defendant shall be deemed to be a person about to incur debts within the meaning of RSA 545:6 and the plaintiff shall be deemed to be a creditor whose claim has not matured, within the meaning of RSA 545:10. In any proceeding brought by the plaintiff under RSA 545:10, the burden shall be upon the defendant to show that any conveyance made or obligation incurred by him during this period was not made to hinder or impede collection of any judgment.

511-A:7 New or Additional Attachment. At any time after the institution of an action, the plaintiff may, upon notice to the defendant, move for leave to make new or additional attachments, on which event there shall be a hearing and determination as provided in RSA 511-A:3.

511-A:8 Exceptions Prior to Hearing. Upon application to the court in exceptional circumstances an attachment may be ordered in advance of notice to the defendant if the plaintiff establishes probable cause to the satisfaction of the court of his basic right to recovery and the amount thereof and in addition thereto the existence of any of the following:

I. There is substantial danger the property sought to be attached will be damaged, destroyed, concealed, or removed from the state and placed beyond the attachment jurisdiction of the court.

II. An attachment is necessary to vest quasi in rem jurisdiction of the court.

III. In equity cases for specific performance of an agreement to transfer land or a unique chattel, there is imminent danger of transfer to a bona fide third party. In such land cases, as well as those to perfect a labor and materials lien under RSA 447, a writ of attachment may be filed at a registry of deeds without prior application and notice, provided said writ is in the form of a *lis pendens* and specifically restricts its application to the particular real estate described in the writ and the return of attachment.

IV. An attachment is necessary to prevent the absolute vesting of title in a purchaser upon the imminent expiration of the notice period under a bulk sale.

V. When necessary to secure an important governmental or general public interest, or when other exceptional circumstances are established to the satisfaction of the court. In all cases of attachment made ex parte the court may impose reasonable conditions thereon and a hearing shall be granted as promptly as possible upon the subsequent request of a defendant.

511-A:9 Other Procedures. Once an order of the court has been made in conformance with the provisions of this chapter all other statutory process shall prevail.

511-A:10 Court Rules and Regulations. The superior court may adopt forms and enact rules and regulations, including but not limited to administrative provisions which will facilitate the implementation of this chapter. Upon adoption such rules, regulations and forms shall apply to all courts of the state.

2 Study by Judicial Council. The judicial council is hereby directed to conduct a review of all existing statutes pertaining to attachments, executions and enforcement of judgments, to determine any necessary changes to bring said statutes into conformity with constitutional requirements and report its recommendations to the speaker of the house of representatives not later than December 15, 1974.

3 Repeal. The following sections of RSA are hereby repealed:

I. RSA 511:60, as amended, relative to additional attachments per order of the court.

II. RSA 511:61 relative to the effect of additional attachments by a court.

4 Effective Date. This act shall take effect upon its passage but shall not affect the validity of any attachment validly made prior to such date.

*Thursday, 21Jun73*

Prayer was offered by House Chaplain Rev. Joseph Y. Beaulieu.

God, our Father, a man in his time sees the world in many moods — in a mood of war and a mood of peace, in days of plenty and days of want. What makes us sons of the living God in this world is not when we boast that we have seen and lived difficult times, but rather when we know our lives have made a difference. If in war we brought peace closer, if in need ourselves, yet we shared with our fellow men; if in peace we worked

for the common good. Then we are sons of the Living God. Our prayer today is that we may be so. Amen.

#### **Chapter 419-A**

#### **Legal Service Corporations**

419-A:1Definitions. As used in this chapter, the following terms shall have the following meaning unless the context requires otherwise:

I. "Legal service corporation" means a non-profit-sharing corporation without capital stock organized under the laws of the state for the purpose of establishing, maintaining and operating a non-profit legal service plan whereby legal services may be provided at the expense of said corporation by attorneys-at-law to subscribers to said plan entitling such subscribers

to payments or benefits in fixed or variable amounts for the cost of legal services;

II. "Non-profit legal service plan" means any plan or arrangement operated by a legal service corporation under the provisions of this chapter, and whereby the expense of legal services to subscribers and other covered dependents is paid by the corporation to attorneys-at-law of such plans or arrangements;

III. "Subscriber" means a person to whom a subscription certificate is issued by the corporation and which sets forth the kinds and extent of legal services for which the corporation is liable to make payment and which constitutes the contract between the subscriber and the corporation;

IV. "Covered dependent" means the spouse, an adult dependent, or a child or an adopted child of the subscriber who is named in the subscription certificate issued to the subscriber and with respect to whom appropriate premium is specified in the certificate.

419-A:2 Incorporation; Commissioner Approval. Any person desiring to form a legal service corporation may incorporate under the provisions of RSA 292 subject to the following provisions:

I. The certificate of incorporation of each such corporation shall have endorsed thereon or attached thereto a statement of the insurance commissioner that he finds the legal service plan to be in accordance with the terms of this chapter.

II. Said certificate shall include a statement of the territory in which the corporation will operate and a statement of the purposes of such corporation.

419-A:3 Certificate of Authority Required; Term; Restriction; Revocation.

I. No legal service corporation organized under the laws of this state shall do business unless it has obtained a certificate of authority from the insurance commissioner.

II. No legal service corporation organized under the laws of any other state or country shall do business in this state except as provided in RSA 419-A:10.

III. Before a certificate of authority is granted to a corpo-

ration it shall file with the commissioner a full information statement under oath signed by its president and secretary, showing its financial standing and such other information in relation to its condition as may be required by the commissioner.

IV. If the corporation is found, upon examination made by the commissioner, to have complied with the laws of the state and is deemed by the commissioner to be safe, reliable and entitled to public confidence, he shall, upon payment of a five-hundred dollar fee, issue a certificate of authority.

V. All such certificates of authority shall expire on April first, but may be renewed upon payment of the annual fee subject to continued compliance with provisions of this chapter and with all other applicable state laws.

VI. Any such certificate of authority may be revoked upon failure to satisfy the provisions of this chapter.

#### 419-A:4 Form of Contract.

I. No single contract between any such corporation and its subscribers shall entitle more than one person to benefits, reimbursement or indemnity, except that a single contract may be issued to any person for the benefit of such person and his dependents; to any employer for the benefit of its employees, or any class thereof, and their dependents; to any labor union for the benefit of its members, or any class thereof, and their dependents; to the trustees of any fund established by two or more labor unions or employers or combination thereof for the benefit of their members or employees, or both, or any class thereof, and their dependents; and to any other entity or combination of entities which may be approved by the insurance commissioner.

II. Such contract shall be in writing and a copy thereof shall be furnished to each subscriber and shall contain the following provisions:

(a) A statement of the amount payable to the corporation by the subscriber and the manner in which such amount is payable;

(b) A statement of the amount of benefits, reimbursement or indemnity to be furnished and the period during which it

will be furnished, and, if there are to be exceptions, a detailed statement of such exceptions;

(c) A statement of terms and conditions upon which the contract may be cancelled or otherwise terminated at the option of either party;

(d) A statement that the contract includes the endorsements thereon and attached papers, if any, and contains the entire contract;

(e) A statement that no statements by the subscriber in his application for a contract shall void the contract or be used in any legal proceeding thereunder, unless such application or an exact copy thereof is included in or attached to such contract;

III. For the purposes of this section, "employer" shall include two or more organizations subject to common control through stock ownership or contract.

419-A:5 Rates and Contracts to be Approved. No such corporation shall enter into any contract with subscribers unless and until it shall have filed with the insurance commissioner of the state a full schedule of rates to be paid by the subscribers and shall have obtained the said commissioner's approval. The commissioner may refuse such approval if he finds such rates are excessive, inadequate or discriminatory. Expenses of the commissioner incurred for the purpose of determining the proper rates to be charged for such services, including but not limited to the employment of a competent actuary and the expenses of any public hearings, shall be paid by the corporation. No such corporation shall enter into any contract with subscribers until it shall have filed with the commissioner a copy of the form of such contract, including all riders and endorsements thereof, and until the commissioner's approval thereof shall have been obtained.

419-A:6 Management. The board of directors or trustees of

a legal service corporation may consist of members of the public, subscribers, and such persons as may be nominated by the New Hampshire Bar Association. At least seventy percent of the board shall consist of subscribers and other members of the public who are not attorneys, or members of their household, licensed to practice in New Hampshire. The approval of the New Hampshire Bar Association shall be required for the thirty percent of the board who are allowed to be attorneys licensed to practice in New Hampshire. No officer, agent or employee of a legal service corporation shall influence or attempt to influence a subscriber or a covered dependent in his choice of attorney-at-law.

419-A:7 Agreements for Payment of Legal Services. Any legal service corporation may enter into contracts for the payment of legal services to the subscribers or members of similar non-profit service corporations of other states, subject to the supervision of such other states, or of counties of this state in which the corporation does not transact business, and shall have the right to reimburse any other non-profit legal service corporation or attorneys-at-law of another state or of counties of this state in which the corporation does not transact business, for services rendered to its subscribers and their dependents at the same schedule of fixed or variable amounts for the cost of legal services. There shall be included in the minutes of the board of trustees or directors of every such organization a record of the approval of payments made to attorneys-at-law. The corporation shall maintain in its office complete records of all legal services rendered subscribers and covered dependents, including the kind of services rendered, the amounts claimed for such services by attorneys-at-law and the amount paid by the corporation. No payment to any attorney-at-law shall be authorized by the board of trustees or board of directors except in accordance with a plan of payments adopted by the board and recorded in the minutes of the meeting.

419-A:8 Reports and Examinations. Every such corporation shall annually, on or before the first day of March, file in the office of the insurance commissioner of the state a statement, verified by at least two of its principal officers, showing its condition on the thirty-first day of December next preceding, which shall be in such form and contain such matters as the commissioner shall prescribe. Examination of the financial condition

of each such corporation by the insurance commissioner or his representative shall be made at least once every three years. The insurance commissioner, or any deputy or examiner or any other person whom he shall appoint, shall have the power of visitation and examination into the affairs of any such corporation and free access to all of the books, papers and documents that relate to the business of the corporation, and may summon and qualify witnesses under oath and examine its officers, agents, or employees or other persons in relation to the affairs, transactions and condition of the corporation. All costs of such examinations shall be paid by the corporation. All costs of acquisition and of management activities shall be under the supervision of the insurance commissioner.

419-A:9 Liquidation or Merger. Every such corporation shall be subject to liquidation, dissolution or reorganization and such proceeding shall be under the supervision of the insurance commissioner who shall have such powers hereunder as he possesses in reference to domestic insurance corporations. Any legal service corporation may merge with any other legal service corporation or corporations subject to the approval of the insurance commissioner.

419-A:10 Reciprocity. Any corporation organized under the laws of another state or country which, as to the state of organization, is a legal service corporation as defined by RSA 419-A:1, and which the insurance commissioner finds has fully complied with the laws of such other state or country, shall be entitled to do business within this state, subject to the provisions of this chapter, after obtaining a certificate of authority to do so as provided by RSA 419-A:3; provided, however, that no such corporation organized under the laws of another state or country shall be entitled to such certificate of authority to do business in this state unless such other state or country grants substantially similar rights and privileges to legal service corporations organized under the laws of this state. The insurance commissioner shall determine whether such rights and privileges granted by other states or countries are substantially similar to those granted by this state, and his determination shall be final.

419-A:11 Insurance Companies Not Affected. Any insurance company authorized by law in this state to make any contract for accident and health insurance or liability insurance

A majority of the committee opposed the bill on various grounds feeling:

1. That testimony at the hearing was inconclusive
2. Bill limited racing licenses to June 30, 1975 to southern part of state only thereby excluding the center and northern parts unfairly

#### A PRELIMINARY REPORT ON THE ACTIVITIES OF THE SPECIAL JOINT LEGISLATIVE COMMITTEE ON THE NEW HAMPSHIRE STATE PRISON

As you are well aware, the Speaker of the House appointed a Special Committee to study the problems at the New Hampshire State Prison. Senator John McLaughlin was placed on this committee by the Senate President. Previously the Senate had

established a committee to review the problems at the prison and senate president Nixon appointed Senators Roger A. Smith, John H. McLaughlin and Robert Bossie to serve on it. Through the cooperative efforts of Senate President David L. Nixon and Speaker of the House, James E. O'Neil, Sr., these two committees have been combined into the Special Joint Legislative Committee on the New Hampshire State Prison.

The committee has been hard at work since early April when it held its first meeting at the prison with members of the Prison Administration and with the Warden. We also met with a representative group of inmates just prior to May 5, 1973 demonstration at the Prison sponsored by the New Hampshire Prisoner's Association. The presence of some committee members at the prison on the day of the demonstration gave us a chance to observe the situation first hand and helped to facilitate communication between the committee and all members of the prison community.

The committee has held several meetings in order to determine its course of action, and we have decided to hold a series of public hearings in order to focus upon three basic areas of concern. Our general inquiry shall include:

1. Fiscal support for the State Prison, with specific reference to inadequate funding; how long such a condition may have existed; the results of any inadequacy and the role federal funds have played in supporting basic programs at the prison rather than providing enrichment to the institution, and the impact of withdrawal of federal funding.

2. Whether the mandate of legislation concerning the State Prison is presently being followed and whether such legislation is adequate or inadequate.

3. The impact of recent court rulings on the administration and organization of the prison and whether any further legislation is needed to accommodate prison operation to the court decisions.

We have already heard testimony from the Prison Board of Trustees and the Warden. In future sessions we expect to have testimony from the Parole Board and Staff; the Crime Commission; the Governor's Office; the inmate population; former Prisoners and other interested persons, such as; former

Prison Warden Parker Hancock, former correctional officers, and other former prison personnel.

The committee held its first public hearing on June 13, 1973 with Warden Vitek and members of the Board of Trustees testifying. Additional hearings are in the process of being scheduled and will begin around July 15, 1973.

Our investigation to date, indicates that the complexity of the problems will involve the committee in many months of study. Today's prison is more costly to run. It is no longer a matter of simply confining a person for a period of time and then when his sentence is up, letting him go. There are increased pressures on our penal institutions from many directions. In order to get qualified and adequate staffing for the prison, better conditions of employment must be provided. Rules and regulations are coming down from the courts which not only affect the prisoners' rights but also place increased responsibilities upon the prison administration. A complete review of the laws governing The State Prison, needs to be undertaken to see if they are working or not working. All of these matters directly affect the situation of both staff and inmates at the prison.

In our various discussions with the inmates and staff two specific problem areas have been repeatedly identified. They involve adequacy of medical and legal aid available at the prison.

In order to assess these situations thoroughly, I am in the process of contacting the New Hampshire Medical Society and the New Hampshire Bar Association to solicit their help in conducting formal studies of these two areas of concern. I will ask these two groups to make a thorough study of the health and legal services that are available at the prison and to report back to the committee in public hearings the results of their findings, including specific recommendations for improving these services at the prison.

The committee expects to conduct and prepare a very comprehensive report on the New Hampshire State Prison. We hope to report back at any Special Session, with recommendations for concrete action by members of the House. We are going to try to do a thorough job in preparing this report and making our recommendations. Positive action and legisla-

tive support are already needed at the prison to avert further problems. When we come back with our report and our recommendations, it will be all the more urgent to take prompt positive steps.

We are working with all segments of the prison community and others in the preparation of our report. I assure you that this committee will make every effort to do the job that needs to be done, with an open mind, and without bias for or against any particular interest group, but we hope in the best interests of the State of New Hampshire.

#### REMARKS BY REP. CARL ALTMAN

Mr. Speaker and Members of the House:

I have a most pleasant chore to perform this morning which delights me no end because of which the chore implies, specifically, to pay my humble respects and appreciation to our highly competent Sergeant-at-Arms and his most efficient and courteous staff where I — as have all the members of this House been accorded the highest degree of cooperation and kindness.

Ted, I am pleased indeed to present you and your staff with this candle and holder. As you can see the holder is made of horse shoes, horse shoes which came off my horse's feet. When thinking of horses and shoes, one can imagine a horse kicking, but Ted, I am quite certain that while these shoes are in your possession they will never be cause for kicking. I wish to include in my appreciation that of the entire House.

At this point I should like to add that there are other offices in the State House who are equally deserving of recognition for their well-performed duties.

In closing, Ted, I pray and wish that this candle shall light the path to all men's hearts whereby we and all mankind shall enjoy the fruits of good health, happiness and peace.

## OVERRIDES GOVERNOR'S VETO

The Senate has voted to override the Governor's veto on SB 96, to provide for the citizen's right to sue to protect against damage to the environment.

## GOVERNOR'S VETO MESSAGE

To the Honorable Members of the General Court:

I regretfully return herewith Senate Bill 96, entitled "An Act to provide for the citizen's right to sue to protect against damage to the environment," without my approval as provided in Section 44, Part II of the Constitution, for the following reasons.

1. This bill comes at a most inopportune time in the history of our state and nation as its effect, if law, would be to cause undue delays in the production of energy and the construction of highways.

2. To build an oil refinery or a nuclear plant in New Hampshire now requires the action of ten or more boards, commissions and hearing agencies which are not only adequate to protect the public, but if not relaxed in some technical areas will make it impossible for New Hampshire to move progressively forward on the energy front.

3. This bill would make it possible for any citizen or taxpayer to bring an environmental action in our courts without having to show special harm to himself or property.

4. It could clog our court dockets, already overburdened with cases, with a host of new and costly actions.

5. The faithful execution of our state laws is a constitutional responsibility of the Governor, therefore, the relief sought by this bill is unnecessary.

6. It is said that similar legislation is recommended by the American Bar Association. As a member of 36 years in good standing in that association, I know from long experience that often positions taken by the Association are not necessarily good for our people.

7. With a growing gasoline shortage and the real possibility of homes and institutions on short supply with heating oil, gas and electricity next winter we should be enacting legislation that will help us produce more energy not curtail it.

I sincerely hope that upon further consideration the Honorable Members will reject Senate Bill 96 by sustaining this veto.

Meldrim Thomson, Jr.

The clerk read the message in full.

Question being, shall SB 96 become law notwithstanding the Governor's veto.

Reps. Underwood, Albert C. Jones, McManus, Allen and Zachos spoke in favor of overriding the Governor's veto.

## VETO MESSAGE

To The Honorable Members of the General Court:

It is with genuine regret that I return to you herewith House Bill 810 "An Act establishing a legislative facilities committee; and making an appropriation therefor," without my approval, as provided in Section 44, Part II of the Constitution, for the following reasons:

1. Section 1, paragraph II of the bill gives power to a legislative committee to conscript state employees to work for indefinite periods of time which could play havoc with work schedules and constitute an unwarranted invasion on the executive branch by the legislature.

2. Economically it is unwise to undertake the full cost of remodeling the old Post Office at the same time the legislature is asking for a capital budget of \$32 million, including \$9 million to complete the new Health and Welfare building and \$10 million for the University System.

The concept of converting the old Post Office building into a legislative office has my backing. I would support now a first step of one million to one and a half million dollars.

Meldrim Thomson, Jr.

June 25, 1973.

Question being shall HB 810 pass notwithstanding the Governor's veto.

Rep. James E. O'Neil explained negotiations between the leadership and the Governor. Legislative Counsel had advised that a veto message, once received by either body cannot be withdrawn so the action of the House and the Governor on June 26 was invalid.

(discussion)

Reps. Stevenson, Coutermarsh and George B. Roberts, Jr. spoke in favor of overriding the Governor's veto.

Rep. Horan spoke in favor of sustaining the Governor's veto.

## VETO MESSAGE

Secretary of State, Robert L. Stark appeared before the House to read a veto message from the Governor on HB 727.

To the Honorable Members of the General Court.

I return herewith HB 727, "An act establishing a department of administration and finance and making an appropriation therefor," without my approval, pursuant to Section 44, Part II of the Constitution, for the following reasons:

1. This bill is an inadequate response to an urgent need for a reorganization of the entire financial structure of the state, and in fact would be a bad first step in that direction.

2. It abandons a good original concept for such reorganization, which I felt was so important that I was willing to share the appointive power for the first commissioner; but now we have only a worthless shell of that concept and are being asked to relinquish the appointive power.

3. This bill when stripped of its verbiage is a bold attempt to restrict the power of the present comptroller and thereby drive him from office.

4. The proposed new department would be top heavy with the addition of six unclassified positions, five for management purposes.

5. The transfer of the Division of Investigation of Accounts and the New Hampshire Distributing Agency to the Department of Health and Welfare would be most unfortunate as the work of these divisions is essentially financial and should be independent of Health and Welfare.

6. The lapsing section for general appropriations could create substantial hardships for the several agencies and for the state.

7. At an additional cost of \$335,000 to the taxpayers, this bill does nothing to improve the financial structure of the state, but on the contrary makes worse that which was already bad.

8. If, as I hope, this bill fails to become law, I shall appoint a Governor's Committee to study and prepare a legislative draft for a thorough revision of our financial structure.

Meldrim Thomson, Jr.  
Governor

Question being shall HB 727 pass notwithstanding the Governor's veto.

Reps. George I. Wiggins, Joseph M. Eaton, Nelson, Coutermarsh and Bednar spoke in favor of sustaining the Governor's veto.

Reps. McLane, Hoar and Roderick H. O'Connor spoke against sustaining the governor's veto.

(Rep. George B. Roberts, Jr. in the Chair)

Rep. James E. O'Neil spoke against sustaining the veto.

LEAVES OF ABSENCE

Reps. Tucker and Duhaime, the week, important business.

Rep. Tirrell, the day, illness in the family.

REMARKS OF REP. DRAKE

Mr. Speaker, Lincoln, N.H. has had a problem which the Legislature acted upon in the last special session and again in this session. We authorized the treasurer to purchase notes from Lincoln for \$165,000 while disposition of the Copeland Process was in the courts.

The town has now settled out of court for a substantial sum in settlement of their claim against the manufacture of the Copeland Process Industrial Waste Facility. This sum is well above the town's total commitment for this process. The state of N.H. has apparently, under the terms of its contract with Lincoln, no legal recourse for recovery. But New Hampshire still has over \$350,000 in bond obligation to meet on this facility. I believe Lincoln has a moral obligation to reimburse the state with any funds available to it from this settlement above Lincoln's own commitment.

I would like the record to show this sentiment.

### GOVERNOR'S VETO MESSAGE

To The Honorable Members of the General Court:

I return herewith HB 778, "An act establishing a joint committee on legislative management and making an appropriation therefor," without my approval, as provided in Section 44, Part II of the Constitution for the following reasons:

1. The Constitution empowers the legislature to name and settle (set salaries) civil positions. Precedent has established that policy for legislative positions as well. A common procedure in these matters is now being discontinued with an accompanying loss of legislative control. Mason in his Manual of Legislative Procedure provides that "a public body cannot delegate its powers, duties, or responsibilities to any other persons or groups including a committee of its own members."

2. No guidelines are set forth as to the salaries and fringe benefits mentioned in this bill and none are evident as to the number, qualifications, or classifications of employees provided for by this bill.

3. The management committee is empowered to obtain and spend funds from any source without specific legislative approval.

4. Powers are given a committee to establish the equivalent of public policy with only cursory later approval of the legislature. I do not question the intentions of the members of the General Court. However, the advisability of enacting a measure with the nearly unlimited patronage possibilities contained in this bill is doubtful.

5. This bill repeals, among other legal controls, the requirement that officials of towns, cities, and political subdivi-

sions be notified when legislation affecting those particular governmental units is introduced.

6. This bill provides for the spending of legislative appropriations with the approval of the President of the Senate or the Speaker of the House.

7. The management committee is authorized to purchase without consulting the director of purchase and property, in effect duplicating purchasing agents.

8. The executive director, who is accountable only to the committee, is given broad powers of investigation without adequate constraints.

9. The management committee is authorized to obligate, enter contracts, and pay out any available funds and to establish positions, hire and set salaries without specific legislative approval.

10. The committee controls the apportionment of all legislative office space including the old post office.

11. The Concord Monitor noted that Representative Newell's objections to this bill were well-taken. "The salaries and duties of the committee's staff should be set forth in the legislation and should be subject to scrutiny by the legislature to avoid appointments on a patronage basis." June 5, 1973.

12. I am aware of the practical operating difficulties with which members of the General Court contend. I am sympathetic to efforts to alleviate those difficulties and would be pleased to approve responsible legislation. However, I am unable to acquiesce with this bill. The trust and confidence which the people placed in me as Governor forbids it.

13. This bill does not represent thoughtful or responsible fiscal policy. It ignores the balance of responsibility and disregards the wisdom of the collective membership of the General Court in deference to a carefully circumscribed elite. The measure flaunts ill-concealed contempt for the principle of accountability to the people for the expenditure by their representatives of the state funds.

Meldrim Thomson, Jr.

A MESSAGE FROM THE GREAT MEN  
ON THE WALL

For many years men we've looked down on the House  
And we've come to admire all who there dwell  
The time grows short till the final gavel  
We are sad that this means farewell.

Some of you come and remain a short time  
But others we've been friends with over the years  
Like Hilda and Davis and Bell and Belcourt  
May you all return for many more years.

We will miss you all, especially the ladies in their mini skirts  
and even the loud and the long who orate  
For we know that you all have one thing in common  
A love for, and the good of the Granite State.

To greet you, and those who follow  
Here we remain evermore  
We'll continue to listen and watch and rate our friends down  
on the floor.  
When you've adjourned and you've signed the board  
And you make your last farewells  
Look up at us for one last time  
And maybe you'll see our eyes say to you all  
Godspeed friend and a safe return  
From your admirers high on the wall.

Rep. Parr moved that the remarks of Rep. Benton be printed in the Journal.

#### VETO MESSAGE

June 29, 1973

To The Honorable Members of the General Court

I return herewith, House Bill 1021, "An act relative to establishing a noise abatement program", without my approval, pursuant to Section 44, Part II of the Constitution, for the following reasons:

1. This bill would increase an already giant and sprawling state bureaucracy and add untold burdens to the private lives of our citizens without having first established that there is in fact a serious noise pollution problem in the state.

2. The Cog Railroad air pollution incident precipitated by an overzealous bureaucrat and rectified by an understanding legislature, would be nothing compared to the long train of

possible molestations of private citizens by public officials under the terms of this bill.

3. The definition of "noise" in this bill is vague, indefinite and could be construed as all-inclusive where the ringing of a church bell or the lowing of a grazing herd could be interpreted as noise pollution.

4. The director of noise pollution abatement would be an official appointed by and a part of the Department of Health and Welfare, an agency that is not noted for its responsiveness to the needs and wishes of the private citizen.

5. The bill provides no appropriation for a noise pollution program and yet the history of such new bureaucratic offices shows that they grow from a tiny legislative spore with the rapidity of mushrooms under a warm summer's rain.

6. The bill contains many bad features of legal procedure calculated to expedite harassments by officials against members of the public.

7. There is no noise problem in the state that cannot be controlled adequately under present state laws or local ordinances now enacted or that could be enacted by local authorities.

For these reasons I believe our citizens neither need the pseudo-protection of this bill nor would long tolerate it.

Meldrim Thomson, Jr.  
Governor
